Council Member  
Fort Wayne City Council

Dear Council Member,

The Fort Wayne Fire Department is requesting your approval for the purchase of a 75' aerial truck from Alexis Fire Equipment.

This truck will be assigned to Station 9 and will be replacing a 1985 Sutphens. The 1985 Sutphens will be placed in to reserve for use when one of the front line trucks is out of service for repair. Currently the Fire Department has no ladder trucks in reserve.

The ladder is a 75' mid mount aerial device mounted on a Navistar 4900 series tandem axle chassis. The truck will have a 1500 gallon pump and 500 gallon water tank. The 1500 gallon pump will be removed from a department reserve pumper and overhauled by our Fire Shop. The overhauled pump will be shipped to Alexis for installation into the ladder truck. This saved the Department about \$45,000.00 on the cost of a new pump.

The Alexis Company bid for the ladder truck is \$294,883.00. The funding source for this purchase is split. \$282,382.50 will come from the 1996 lease purchase funds with the balance of \$12,500.50 coming from the departments 1997 budget. The funds in the 1996 lease purchase were spent in 1996 because original bid prices at that time were about \$100,000.00 over available funds. The project was rebid in 1997 with only one bidder providing a bid.

Sincerely,

Steven C. Hinton  
Fire Chief
